Gaspar R. Fabbriante  
Principal

ORegon 3-9030

April 22, 1977

Dear Professor Lederberg:

I have referred your recent communications with me to Mr. Jacob Wortman, who in his capacities as teacher of Mathematics, Assistant Principal and Acting Principal, and recently as consultant and advisor, has served Stuyvesant for the past 50 years.

He will be able to assist you in constructing much of the history of our school because of his long association here. You may be interested in knowing as well that our Arista students next year will begin a research project to compile a history of the school in time for our 75th anniversary in 1979.

At present Mr. Wortman has out of town obligations but will be in touch with you before long.

Sincerely yours,

Gaspar R. Fabbriante  
Principal
